

RM15-22KW Oil-Flooded Rotary Screw Compressors

The new RM-Series oil-flooded screw air compressors leverage an advanced compressor core to achieve exceptional performance and reliability standards. The optimized rotor profile and standard premium efficiency motor provides efficiency gains resulting in lower energy costs and reduced operational spend. Equipped with a Luminance Series intelligent controller with powerful remote management capabilities, the RM-Series air compressors increase your productivity and give you peace of mind.

Features

- **Decrease Energy Use:** IE3/NEMA Premium® Efficiency TEFC motor delivers significant energy savings /
- **Increased Efficiency and Air Flow:** State-of-the-art airends provide up to 16% improved efficiency and 16% more airflow capacity to provide the energy-saving, reliable operation you demand /
- **Leak-free Design:** V-Shield Technology provides a totally integrated, leak-free design featuring PTFE stainless steel braided oil hoses and O-ring face seals
 - **Oil Separator:** Three-stage separation system with cone-shaped baffles
- **Ease of Maintenance**

removes oil from your compressed air to below 3ppm, protecting your downstream equipment, extending filter life, and reducing overall maintenance costs.
